Physical VERSES  
AND  
Rules for HUSBANDRY.

Of JANUARY.

**I**F thou be sick, and help would'st have,  
The Counsel of the Learned crave:  
If thou hast health, to keep thee so,  
Fly Idleness as deadly Foe.

January's Instructions for Husbandry.

This Month set all kind of Fruit-Trees, and Quicksets: In the New of the Moon (the wind and weather observed) you may set Pease and Beans, Parsnips and Oats, if the weather prove mild, and the Moon decreasing.

Of FEBRUARY.

Be choice of Food in any wise,  
To keep thee warm also precise:  
Beware likewise thou let not Blood,  
Except the Learned say 'tis good.

Februaries Instructions for Husbandry.

This Month set Roses, with all other kind of Plants and Quicksets, sowe Pease and Onions as in the Month before (the weather consider'd) you may now Garden for Sallet-herbs, Pot-herbs, and such like.

Of MARCH.

Now Bleed, and Bath, if thou desire,  
And Purge also (if need require)  
Ill humors do in many breed,  
Provide in time before you need.

March's

### March's Instructions.

This Month (in the New of the Moon) Graft,  
Set Quick-sets, and Vines, Cut your Hedges  
and Vines already growing. Also you may sowe  
Onions, Beans, and Oats, and all manner of  
Garden-herbs.

### Of APRIL.

Now wholsome Baths thou may'st frequent,  
Let Blood also, and not repent;  
These are good means thee to defend,  
From Grievs, the which on thee attend.

### April's Instructions.

In this Month Pole your Hops, sowe Barley  
and Artichokes, Bark Trees for Tanners, sowe  
Hemp and Flax, set Cytrons, Melons and Cu-  
cumbers, and furnish and replenish your Gar-  
dens with Summer Herbs.

### Of MAY.

Rise early now this Month of May,  
And walk the Fields that be so gay;  
From Surfeiting see thou refrain,  
Or sure it will procure thy pain.

### May's Instructions.

In the beginning of this Month you may  
sowe the Seeds of Summer Herbs, which could  
not endure the cold of the forepassed Months:  
You may yet sowe Hemp and Flax: Weed your  
Hop-Gardens, and take away superfluous  
Branches, and Moss your Gardens.

### Of JUNE.

Drinks New or Sweet, Taste not at  
For, thereby grows no danger small

*And, to thy self such pastime take,  
As way in God thee merry make.*

#### June's Instructions.

In this Month (at the Full of the Moon) Gather your herbs to keep dry for the whole year, Weed your Corn-fields and Gardens, Set Rosemary and Gilliflowers, Sow Lettuce, Sheer Sheep, the Moon increasing.

#### Of JULY.

*Perfume thy house with Savours sweet,  
But such as are for purpose meet,  
Abroad as thou in Streets do'st go,  
Defend thy self from stinks also.*

#### July's Instructions.

In this Month ply your Haying, Fallow your Lands for Wheat, Pull up Hemp that is ripe, get Rue and Wormwood to drive away Fleas and Moths. Dry Flowers in the shade, and then Sun them a little for fear of corruption.

#### Of AUGUST.

*As burning Heat will thee destroy,  
So shivering Cold will thee annoy;  
Let little sleep thee now content,  
Purge not, nor Blood, lest thou repent.*

#### August's Instructions.

Reap Wheat and Rye, cut down your Oats, Gather Garden-Seeds, Sow Lettuce and other Winter Herbs in the New of the Moon: Use moderate Diet, forbear to sleep presently after meat, take heed of sudden cold after great heat.

## OF SEPTEMBER.

*Raw Fruits (though ripe) may Sicknes bring,  
Unripe much eat, a dangerous thing;  
If now a Surfeit thou dost take,  
When others sleep thou must awake.*

### September's Instructions.

Set Artichokes, Sow Seeds for Winter herbs, gather Hops and Apples, and other Fruits (which are fit to be gathered) about the Full of the Moon, the weather being dry. Cut Quicksets, Sow Wheat and Rye, kill Bees, make Verjuice, Sow Parsnips and Carrets; Remove and set Slips of Flowers; Set Roses, Strawberries and Barbaries: and remove Trees every New Moon till February,

## OF OCTOBER.

*Warm Cloaths must now provided be,  
Also warm Meats are good for thee.  
Have good regard thy feet be dry,  
Thou shalt avoid much harm thereby.*

### Octobers Instructions.

Remove your Plants and Trees in the New of the Moon, and about the Full of the Moon gather such Fruit as you left ungathered the last Month. Set all kind of Nuts and Acorns: And cut your Rose-Trees but once in two years, if you intend to have store of Roses.

## OF NOVEMBER.

*If Rheums do now molest thy Head,  
It is not ill to sweat in Bed;  
Feed on good Meats if Stomach serve,  
Else seek for that which doth preserve.*

## Novembers Instructions.

In the New of the *Moon* remove young Trees, set Crabtree-Stocks to Graft on; and in the Old of the *Moon*, set Pease and Beans, for Parsnips and Carrets, make Malt, kill Hogs and make Martimas-Beef.

### Of DECEMBER:

*Now cold December is come in,  
The poor mans back is cloathed thin;  
Then Feed and Cloath him as you may,  
The Lord will it three-fold repay.*

### Decembers Instructions.

This Month and the next are best to fell great Timber in the Old of the *Moon*, to uncover the Roots of your Fruit-trees, Fallow Land for Barley, cover Herbs from cold, look well to your Cattel, take Fowl with Nets or Lime-twigs.

32. Urine black and thin, (if the sick do loath when he goes to the Stool, and speaks overthwart, or under stands not aright) if his sickness goeth not from him, it signifieth Death.

*A Description of the Magnitudes, Motions, and Distances of the Seven Planets.*

**A**rgol, a laborious and learned *Astronomer*, giveth this account of the Planets Motions and Distances, to wit:

The Sun is greater than	{	<i>Saturn</i> , Nine times.
		<i>Jupiter</i> , Fourteen times.
		<i>Mars</i> , Two thousand five hundred thirty five times.
		<i>Venus</i> , Twelve hundred and seventy times.
		<i>Mercury</i> , Three thousand seven hundred and five times.
		The <i>Moon</i> , Ten thousand times.
		The <i>Earth</i> , One hundred ninety six times.

*Jupiter*, The one half.  
*Mars*, Two times.  
*Venus*, Two hundred eighty six times.  
*Mercury*, Four hundred and eighteen times.  
 The *Moon*, One thousand one hundred twenty two times.  
 The *Earth*, Twelve times.  
*Mars*, One hundred eighty two times.  
*Venus*, Eighty four times.  
*Jupiter* is greater than *Mercury*, Two hundred sixty six times.  
 The *Moon*, Seven hundred and Fourteen times.  
 The *Earth*, Fourteen times.

*Venus* is twice as big as *Mars*, and three times as big as *Mercury*.

*Mars* contains *Mercury* once and an half.

The *Moon* is greater than *Mars*, Thirteen times.  
*Venus*, Six times.  
*Mercury*, Nineteen times.

## Of the Properties, and Natural Effects of the Seven Planets.

### Saturn.

**S**aturn being well posited, is like a grave Coun-  
 sellor, & a Man of authority thinking of great  
 matters, a lover of Secrets, Diligent, Solitary,  
 Covetous, Studious and a Zelotype—Being evil  
 affected, he is an Abject, a Pick-thank, fearful,  
 given to Solitariness, Sad, Stubborn, Ill-willy,  
 Deceitful, Sloathful, Dull, a Lyar—By nature he  
 hath relation to a Husbandmen, Masons, Black-  
 smiths, Diggers in the Earth, Tanners, & the like.

### Jupiter.

**J**upiter is said to be the greater Fortune, & of  
 Nature is benevolent; Being well situate, he  
 maketh men honest, prone to good duties, pious,  
 magnanimous, vericundious, modest, wise, dili-  
 gent, liberal & yet careful of their own—Being  
 evil disposed, he is more prodigal & stout—He  
 signifies, Bishops, Church-Governors, Lawyers,  
 Judges, Governours of Towns and Cities, and  
 Ecclesiastical Persons,

Mars.

*Mars.*

*Mars* being well affected, is valiant, generous, hasty, given to War, fearing no danger, impatient of servitude, and injuries, not respecting riches—But being badly seated, he is ireful, cruel, prodigal, a Tyrant, a murderer, & the author of discords and seditions—He hath relation to Soldiers, Surgeons, Turks, Fire-works, &c.

*Sol.*

He is magnanimous, valiant, provident, a giver of long life, and a healthful body—He maketh Men wise, famous, desirous of honours, having signification of Kings, Princes, Dukes, Marquesses, Earls and Potentates.

*Venus.*

*Venus* being well situate, maketh men fair spoken, pleasant, fair, delicate in gesture, given to pleasures, sociable, merciful, &c —But being ill affected, she is effeminate, timorous, a lover of Maids, sluggish, lustful, a Zelotype, and given to idleness.

*Mercury.*

*Mercury* being well seated, causeth a sharp wit, maketh men studious, and capable of Learning—Being ill seated, he is subtile, crafty, malicious, and a Lyar—Of Persons, he signifieth Philosophers, Poets, Mathematicians, Scriveners, Merchants, and the like.

*Luna.*

The Moon maketh men unconstant, fearful, prodigal, studious of Histories, and given to Navigation and Planting—She signifies Embassadors, Legates, Queens, Ladies, also Common People, Fishers, Watermen, and such like.

Of

# Of the Four Quarters of the YEAR 1696.

## Of WINTER.

**W**inter Quarter (after the *Astronomers Account*) began the 11th of *December*, at which time the Sun entered into *Capricorn* the last year, and continues till the Tenth of *March* this year. So that always the first part of the Astronomical Winter Quarter, is in one Politick year, and the latter end thereof is in the other.) At which time was the shortest day of the year, by reason of the Suns greatest declination from the Equinoctial Line.

This Season of its own disposition, is known to be cold and moist, contrary to the quality of the Summer; and, in this Quarter the inward parts of Man are very hot and being healthful, may receive plenty of Food, because natural heat is now comforted, and is gone inward, and there increaseth, and maketh Digestion the better.

The Sickneses whereunto this Quarter is most inclined, are *Rheums, Gouts, Pustles, Sore Eyes, Melancholy, Coughs, Catharrs, Sciatica's, Falling-Sickness, Diseases proceeding of Rot-*

*tenness and Corrupt Humors; with divers kind of Infirmities incident among Women.*

## Of the SPRING.

**T**He Spring-time (being the most pleasant and Wholsom Season of the Four) taketh its beginning on the Tenth of *March*, when the Sun entreth into the Equinoctial point *Aries*, making the days and nights of equal length; which Quarter endeth the 10th of *June*, when the Sun entreth into *Cancer*.

This season is naturally hot and moist, and is of the Sanguine complexion, being the most temperate and healthful time of the year, and is therefore accounted the fittest time to ease diseased Bodies in, and to restore health again in those in whom formerly it hath been decayed by any kind of evacuation.

The Infirmities of this Quarter are *Melancholy*, *Madness*, the *Falling Sickness*, *Bleeding at the Nose*, *Hoarseness*, *Coughs*, *Itch*, *Scabs*, many *Ulcers*, and small *Apostumes*, the *Gout*, and *Pain in the Joynts*, *Pleurisies*, *Dropsies*, *Pestilent Agues*, *Shortness of Breath*, *Faintings*, *Pain in the Head*, *Eyes*, and *Stomach*, *Rotten Feavers*, and other *Strange Diseases*.

## Of SUMMER.

**S**ummer (accounted the Third part of the Year *Astronomical*) taketh its beginning at the time of the Sun's entrance into the first min. of the Solstitial Sign *Cancer*, which is the  
Tenth

Tenth of *June*, at which time he makes his greatest declination from the Equinoctial towards the North, and causeth the longest day and shortest night in the year; and so Summer holdeth on till the 12th of *September* following.

In this Quarter the Stomach cannot digest such hard Meats as it will in the Winter season, for that natural heat is now distributed into the exterior parts, and man is not now so hot within as in Winter.

The Sickneses at this time are divers, as *Burning Agues, Pleurifies, Frensies, Hot Apostumes, Divers pains in the Head, Sundry Inflammations, and New Infirmities*, proceeding especially of *Hot Cholerick Humors*, wherewith many will be sore molested.

## Of AUTUMN or HARVEST.

**A** *Utumn or Harvest* (being the Fourth, or last Quarter of the Year) begins upon the 12th of *September*, the Sun then making his entrance into the second Equinoctial Sign *Libra*, working the same effect that he did at his entring into *Aries*, that is, making the days and nights of equal length, rising at six in the morning, and setting at six at night; and this Quarter doth last until the Eleventh of *December* following.

The quality of this Season is naturally cold & dry: yet by reason of its mutability, 'tis the most unwholesome; by means whereof, it is more subject to sickness than any other: for the dregs of all diseases, of the former parts of the year, will now break forth and be seen. B 2 The

The Diseases of this Quarter are like to be many and dangerous, as *Black Jaundices, Mergims, the Falling-Sickness, Oppilations in the Spleen, Difficulty of Breathing, Convulsion Fits, Dropsies, Sciatica's, Biles, Tooth-ach,* and many more: *From which good Lord deliver us.*

---

## *Of the ECLIPSES this YEAR* 1696.

**T**HERE will be Four Eclipses this Year, Two of the *Sun*, and Two of the *Moon*; neither of those of the *Sun* will be conspicuous to us in *England*, and therefore I shall pass them by in silence: But those of the *Moon*, being both of them great Eclipses, I shall speak only of them.

The first Eclipse of the *Moon* will be upon Wednesday the Sixth of *May*, at a quarter of an hour before 12 at Night; at which time the whole Body of the *Moon* will be obscured, but immediately after she will begin to recover her Light again.

The Second will be upon Friday the 30th. of *October*, at 56 min. after Four of the Clock in the Morning, at which time she will be Totally Eclipsed.

*Of*

*Of several Diseases, Maladies and  
other Distempers incident to Horses  
and other Cattle, with their Causes and Cures.*

*I. An infallible Cure for a Swoln Foot.*

**T**AKE halfe an handful of Elder Leaves,  
a few Leaves of Grunsel, a few crops  
of Chick-weed, a small quantity of Houfleeke:  
Beat all these together in a Morter with some  
Swines Grease, till they be a Salve: Then  
make a Plaister thereof and apply it, it will  
quickly bring down the Swelling.

*II. To preserve or keep an Ox sound.*

Wash his mouth with his own Water and  
White Wine Vinegar, once in Ten or Twelve  
days, and it will bring a great deal of Flegme  
and Water off, which would take away his  
Stomach, and cause him to hang down his  
Ears, and have weeping Eyes.

Also, If you wash his Tongue and Mouth  
with White Wine Vinegar and Time, Stamp-  
ed together, with a little Salt, it will make  
a Beast have a Stomach again, if he have  
lost it.

*III. To Cure Scabs on Beasts.*

Take the Beasts own Water, Butter, Salt,  
White Wine Vinegar, Salad Oyl, and a little  
Brimstone, all of them blended together;  
This mixture being rubbed on the Scabby  
place will cause it to heal presently.

*IV. For*

#### *IV. For a Beast that hath a Feaver.*

Feavers in Beasts are often caused by over driving, or by over-hard Labour, or by drinking of Cold Water when they be extream hot.

You may know whether a Beast hath this Distemper upon him by these Signs; For, his Eys will swell, he will be heavy in his head, and the extream heat which is in their Bodies will cause their hair to stand of a Sweat upon them.

To cure this Distemper; First, Give them some Grasse and Lattice mixed with it, this will abate the inward heat, and the next Morning let them blood in the Neck Vein; then give them the juice of Purslen mixed with Gum Dragon, Aniseeds, Powder of Musk Roses, put into a Quart of Strong Ale Sweetned with Honey: Give them this three Mornings together milk warm, and keep the Beast warm also, and it will certainly cure him.

#### *V. To kill Lice in any Beast.*

Take Quick Silver, and kill it with Swines Grease, and rub them very well about the Horns, Head and Neck, and upon the Shoulders and Dew-lap, for they will lick the rest of their Bodies themselves — Also, if you strew some keene ashes on their hinder parts, and let them stand in the Rain a while, it will make them all fly away from the Beast for certain.

#### *VI. Three*

*VI. Three Remedies for an Ox or Cow, that  
hath lost their Appetite.*

1. If a Beast be tired by Labour, and hath lost its Appetite, cause it to swallow raw Eggs well beaten with Honey, Vinegar and Salt.

2. Take Horsehound made into fine Powder, and give it them to drink, and it will promote an Appetite.

3. Stamp the tops of Rue, Leeks, Smallage and Sage, and give it the Beast in White Wine to drink, and it will help him to an Appetite.

*VII. To Cure the Garget in the Head.*

You may know whether your Beast have this Infirmary, by the swelling of their Eyes and Lips; as also by looking into their Mouths for Blisters on their Tongue, and if there be any break them; and if the Tongue be swol'n pull it forth, and look under it for Blisters, and if there be any break them also: But if the Tongue be swol'n, and there be no Blisters to be seen, take your Knife, and give the Tongue a Slit underneath of about an Inch long to let the Poyson out: Then wash it with Vinegar for the present; and an hour after give them 3 Pennyworth of Fenigrick, Turmerick, Long Pepper, Liqueores Powder and Aniseeds, in a Quart of Strong Ale or Beer, Milk warm.

To prevent this Distemper, you must Blood your Beast well at Spring and Fall, giving them some Rue in a Pint of Ale, Beer, or Milk, warm.

*VIII. To*

VIII. *To Cure the Mountain Evil in any Beast.*

Let the Beast blood in the Neck Vein, And give it to drink a Pint of Old Urine, with a good quantity of Hens dung Steeped in the same for Eight or Ten hours; as also a handiul of Rue, strain them, and give every Beast a Pint to drink, and it will cure it.

IX. *For the Biting of the Shrew Mouse.*

This Shrew Mouse is a more Venemous Beast then any; for if she bite any Beast (though but a little) it will swell abundantly.

Take Parsly seed, and boyle it in White Wine, Salad Oyle and Hogs Grease: Also take some Powder of burnt Barley, and blend in it, working it like a Salve; and with this Anoint the Sore till it be well.

*This is good also for to Cure the biting of Hedge-Hogs, and the stinging of Hornets.*

X. *For the swelling of an Oxes Cod.*

Anoint the Cod with sweet Seame, at the first three times a day; and if it do not fall, then take Wall Earth, and dissolve it in Vinegar with the dung of an Ox, and with that bathe the Beasts Cod.
